

July 2021

CCRTL Meeting  
July 21 ZOOM

Clark County  
Fair cancelled.

# Clark County Right to Life

## “Going Local”...sharing life-saving information with classmates

This past school year, I attended Faith Christian College at my home church, Faith Center. As part of a leadership class I gave a speech about the pro-life movement and used the occasion to give my classmates the Local Pregnancy Resource packets which have been handed out at the Clark County Right to Life fair booth as well as outside Planned Parenthood Vancouver during the 40 Days for Life.

I received several positive comments from my classmates about my speech, in fact I talked to two students that each knew of someone close to them that had experienced an abortion in the past. Because I had the packet of resources, I was able to tell them about Project Rachel which offers post-abortion hope and healing for men and women suffering after an abortion.

This packet also contains info about local pregnancy resource centers, childbirth and parenting classes, maternity homes, adoption

services, fertility awareness services and abortion pill reversal services which is often successful in reversing an RU-486 abortion if done within the first 72 hours.

Clark County Right to Life can work with you to fashion pro-life presentations to suit your audience at church, home or school. We would also be happy to provide packets of Local Pregnancy Resource and newsletters for distribution.

Contact us by email at [4life@clarkrtl.org](mailto:4life@clarkrtl.org) or text your message to 360-831-7542 and we will get back to you.

Let's all do our part to support our to support pro-life organizations with our prayers, finances and maybe even volunteer, and to stand up for life wherever we can so that one day, again, all human life will be protected in our country.

**Jennifer Dickson, CCRTL Board Member**

## “Going Local”...billboards

Going Local” with the message means using the money budgeted for the fair exhibit for an extra 8 weeks of the billboard: St. Johns Rd & 78th St (9/6-10/3) and St. John’s Rd & 28th St (10/4-10/31).

This in addition to our yearly billboard at 4th Plain & Stapleton Rd (8/2–9/26). Thanks to our generous donors.

## “Going Local”...window signs

“Going Local” with the message also means providing every household which receives this newsletter with their very own “home-style” version of our “You are not alone” billboard .

Put it on the inside of a window and share its message with anyone who comes to your front door. Make a copy for friends and family.

**Pregnant?  
You are  
not alone.**

# A “Goodbye” message from our President, Tina Bock

Hello to you all! I hope that your summer is going well. I have loved serving as president of Clark County Right to Life and writing these articles to keep you all up to date on our activities.

I've always been an advocate for life. As a middle schooler, I joined my local church in forming the "Life Chain" where we joined in unified prayer for the end of abortion. As a young adult, I learned that there was a difference between being "personally against" abortion and euthanasia quietly and taking a stand in favor of LIFE.

Sometimes it is uncomfortable to let people know where you stand, but that is exactly why it is necessary. In November 2008, our nation elected a leader who (at the time) was the most anti-life president we had ever had. I felt instantly called to do something. The next month, I was at my very first Clark County Right to Life meeting. The members were incredibly warm and welcoming, quickly utilizing my eagerness to become more active. It is truly amazing to look

back and see how much time has passed.

Next month, I will be moving to Florida with my family. We have always wanted to relocate and we found an amazing opportunity that fits our family. Please know that my heart will always be here, supporting the Clark County pro life groups from afar. If you have ever felt a stirring in your heart to become part of a group, I would strongly encourage you to reach out. Go to the [Contact Us](#) page at [www.clarkrtl.org](http://www.clarkrtl.org), answer the questions and see where it takes you.

Can you imagine the impact our state would have if we all stepped into one small role towards our goal? Whether its participating in 40 Days for Life, or volunteering at a pregnancy resource center, or even sitting on our Board of Directors - any little step is progress. In 1970, Washington became the first state to legalize abortion. Wouldn't it be great if we were the first to stop it? Thank you for your continued prayers and support. God Bless!

***Tina, your generous service has been an inspiration to us all. We wish you the very best in your new home with your family. You will be greatly missed. God bless you and your family, CCRTL Board***

## Are You an Informed Parent?

As a mother of 4, I make a point to know what is happening in schools across the state.

With the passage of Senate Bill 5395 Washington State mandated comprehensive sex ed in all schools by the school year 2022-23. The State Dept. of Public Instruction issued a Sample Parent Letter which states: “You will be able to opt your child or children out of instruction with a written request, and you will also be able to review our sexual health curriculum prior to instruction taking place.”

Many school districts already taught sex ed and outsourced their sexual education curriculum to Planned Parenthood. For

example, recently Stewart Middle School in Tacoma, WA gave students a Planned Parenthood flier promoting pre-teen sexual activity, access to birth control /abortion and sending and receiving sexually explicit messages and pictures.

In addition, many schools have “school-based health clinics” which provide comprehensive health care to students including referral for abortion and birth control prescriptions without parental knowledge.

As parents we have the right to review the school’s sex ed curriculum and opt our children out. CCRTL website includes a link to Teen-Aid’s Healthy Family Formation curriculum [www.teen-aid.com](http://www.teen-aid.com). Or call 509-482-2868.
